WELCOME IN THE WINTER WORLD!

LISTENING. SNOW. JOYS

Winter in the Nassfeld-Pressegger See region is winter for all senses. Winter full of action and pleasure. Full of relaxation and family fun. And that's no wonder: After all, the World of Mountains & Lakes is one big, glistening canvas for colourful winter adventures.

Whether it's for skiing and snowboarding, for relaxing and unwinding or for having fun with your family: The winter paradise of the Nassfeld-Pressegger See region offers something for every taste. Discover a winter wonderland world full of unforgettable adventures – but be warned:

The Winter World of the Carinthian mountains is addictive! Once you're there, you won't want to leave ...

COVID19-TEST STATIONS FOR LOCALS AND GUESTS

(VOLUNTARY)

Due to the increased demand from locals and guests, two separate test stations for voluntary testing (from 28 December 2020 until presumably April 2021) will be established in addition to employee testing (in accommodation establishments). Appointment and payment must be made online!

LOCATIONS:

- ▶ **SONNENALPE NASSFELD** from 4.1.2021
Mon - Fri 7.30 - 9.30 am every day
(opposite Hotel Gartnerkofel)
- ▶ **TRÖPOLACH** 28.+29.12.2020 and from 4.1.2021
Mon - Fri 10.00 am - 12.00 pm
(Hotel FRANZferdinand; west terrace)

COSTS:

- ▶ **ANTIGEN RAPID TEST € 29.00**
(result within 15-30 min. on site; no written report!)
- ▶ **PCR TEST € 120.00**
(results within 36-48 hours for download/or by post on request)

FURTHER INFORMATION ON THE TWO TEST OPTIONS

PCR TEST

Direct virus detection of SARS-CoV-2 is possible by PCR test. It is therefore the only reliable test to detect an acute infection with the SARS-CoV-2 coronavirus. During this test, a throat swab is taken. Please note that direct virus detection by PCR test is only a snapshot. From a medical point of view, a PCR test is useful if there is a suspicion that you have been infected with the SARS-CoV-2 coronavirus, especially if you experience symptoms such as fever, dry cough or shortness of breath and/or if you have had contact with a sick person. An active infection is detected - even in people who are (stylel) symptom-free - and it is determined whether the person tested is a carrier of the virus. If you experience severe symptoms (such as high fever, cough, shortness of breath), please stay at home and call the hotline 1450 or your GP or an ambulance 144 and follow the instructions given over the phone.

COSTS:

PCR-Test EUR 120.00 (Prior online appointment and payment required.)

HOW DO I GET THE RESULTS OF THE PCR TEST?

There are two ways to obtain your results of the PCR test: depending on your choice, we will either send you the results by post or you will receive an e-mail as soon as the results are available for download on the online platform BefundPost.at. As a rule, the results are established within 36-48 hours from the time the samples arrive at IHR LABOR. However, IHR LABOR is not obliged to provide services and/or meet certain deadlines if this is not possible due to technical defects or lack of availability of the required capacities (e.g. reagents, equipment, etc.), and these circumstances are not due to gross negligence on the part of IHR LABOR. In this respect, the laboratory does not provide any warranty or guarantee and does not assume any liability. After the analysis has been completed, **IHR LABOR** carries out the legal EMS (epidemiological reporting system) notification to the relevant authorities.

ANTIGEN RAPID TESTS

Antigen tests can be used to identify individuals with an active SARS-CoV-2 infection. The gold standard for detecting SARS-CoV-2 is the RT-PCR test, which should be used to verify positive antigen test results. Due to the lower sensitivity of antigen tests compared to RT-PCR test, a negative antigen test result does not reliably rule out a SARS-CoV-2 infection. Antigen tests are only in part suitable for the detection of asymptomatic patients, but can contribute to the rapid and early identification of symptomatic or highly infectious patients - if carried out correctly.

If the test result is positive, the Carinthian Red Cross carries out the legally required EMS (epidemiological reporting system) notification.

COSTS:

Rapid antigen test EUR 29.00 (Prior online appointment and payment required.)

TERMS AND CONDITIONS OF SALE AND TRANSPORT OF THE MOUNTAIN RAILWAYS

With the exception of the cases listed under "Refunds", there is no right to price reductions or refunds or extension of the validity of the ski pass in the event of loss of the ski pass, discontinuation of the lifts due to bad weather, avalanche danger, restricted range of pistes and facilities, officially ordered closures or closures, epidemics, pandemics, closure of borders, premature termination of operations or other events beyond the control of the mountain railways. Persons who disregard closures, instructions and orders of the lift personnel will be excluded from transport without entitlement to a refund of the ticket price. The instructions of the lift personnel must be followed. We ask you to use the access facilities properly.

Insurance cover (according to the cable car law) is only valid for persons with a valid ticket! The purchase of a cross-area ski pass (e.g. Topskipass Kärnten Osttirol) entitles the passenger to use the ticket in partner ski areas. The transport contract is only concluded with the company whose facilities and slopes are currently being used. Any liability towards passengers arising from incidents during the use of the facilities and pistes shall therefore exclusively be borne by the cableway/lift company in whose ski area or on whose facilities or pistes the incident occurred.

CONTROL AND ABUSE: Strict controls are carried out by means of electronic readers at the access points in the ski area. Tickets must be presented to the lift staff for inspection on request. All ski passes are non-transferable! Any misuse of ski passes, including use by third parties or use of incorrect age categories, will be punished and will result in the withdrawal of the ski pass without compensation (subject to the imposition of a fine or the filing of a criminal complaint pursuant to § 149 StGB 149, suspicion of fraudulent use or § 146 StGB suspicion of fraud). The card The owner of the ski pass is obliged to take good care of it and to report any loss or theft immediately. Resale or passing on of ski passes and vouchers is **STRICTLY PROHIBITED!**

DATA PROTECTION: The protection of your privacy and data protection is of particular concern to us. We therefore process your personal data exclusively on the basis of the statutory provisions. By accepting or purchasing a ski pass, the customer/ticket holder agrees to the current terms and conditions of sale and carriage as well as to automatic registration or personal photographic recording (e.g. Photocompare), storage and processing of their personal data in accordance with our publicly displayed data protection declaration. / AGB zu. www.nassfeld.at/de/AGB

REFUNDS: With the exception of the cases listed under "Refunds", there is no right to price reductions or refunds or extension of the validity of the ski pass in the event of loss of the ski pass, discontinuation of the lifts due to bad weather, avalanche danger, restricted range of pistes and facilities, officially ordered closures or closures, epidemics, pandemics, closure of borders, premature termination of operations or other events beyond the control of the mountain railways. Persons who disregard closures, instructions and orders of the lift personnel will be excluded from transport without entitlement to a refund of the ticket price. The instructions of the lift personnel must be followed. We ask you to use the access facilities properly. Insurance cover (according to the cable car law) only for persons with a valid ticket! The purchase of a cross-area ski pass (e.g. Topskipass Kärnten Osttirol) entitles the passenger to use the ticket in partner ski areas. The transport contract is only concluded with the company whose facilities and slopes are currently being used. Any liability towards passengers arising from incidents during the use of the facilities and pistes shall therefore exclusively be borne by the cableway/lift company in whose ski area or on whose facilities or pistes the incident occurred.

OVERLAPPING OF SEASONAL PERIODS:

Automatic calculation of a mixed fare for multi-day tickets by the ticket office computer.

ACCIDENTS: Please report accidents to the nearest lift station, stating the location of the accident. A first-aid station with medical assistance has been set up in the valley in Tröpolach. A helicopter can be requested for serious accidents.

LOSS OF SKI PASSES: On presentation of the purchase receipt, it is possible to block the ski pass and a replacement card can be issued.

RULES FOR SKI TOURERS ON THE SKI SLOPES:

For safety reasons, pedestrians and ski tourers are not allowed on the ski slopes at any time of the day or night! In general, the ski slopes are closed from 5 pm to 8 am. There is danger to life!

FRESH SNOW: The mountain railways always endeavour to offer you the best piste conditions every day. We ask for your understanding that it is not always possible to prepare all the pistes at the same time when there is fresh snow - even when the piste equipment is working at full capacity. Furthermore, we cannot guarantee excellent piste quality when there is fresh snow, as the fresh snow does not always combine optimally with the underlying snow cover.

ICE CLIMBING IN THE NASSFELD-PRESSEGGER SEE REGION

First, you kick your crampons into the frozen wall in front of you, and then you swing the axe into the ice above your head. It's amazing how just a few centimetres-deep is enough to pull yourself up on! Equipped with crampons, an axe and a helmet, you can scale the vertical ice wall. Guided ice climbing tours are offered both at the Vorderberger Klamm and at the Kötschach-Mauthen ice tower

ICE STOCK CURLING

AN ICE SPORT WITH A LONG-STANDING TRADITION

The ice stock sport – also known as Alpine curling – enjoys great popularity in Carinthia. Especially when temperatures drop below zero, many ice stock enthusiasts have only one goal: Manoeuvring the cone-shaped ice stocks over the ice to hit a small wooden target called "Daube" in German.

EXPERIENCING THE MAGIC OF FRESH POWDER SNOW

SKI TOURS IN THE CARNIC AND GAILTALER ALPS

Nothing but silence around you, picturesque winter landscapes and soft powder snow: Thanks to the special micro-climate on the sunny side of the Alps, there's plenty of fresh snow falling in regular intervals. This creates perfect conditions for a ski tour in the Carnic and Gailtal Alps

GOOD TO KNOW: Ski touring means immersing yourself in nature. So please be mindful of your surroundings and the wildlife in the region! Follow the signposted routes and give the animals the space they need! This avoids unnecessary stress and disturbances, and both humans and animals can enjoy some peace and quiet in the mountains ...

SAFETY FIRST: Nothing's more important than staying safe while out and about in the mountains. Find out about the snow conditions and avalanche warnings ahead of every tour!

RULES FOR SKI TOURES ON SKI PISTES

For safety reasons, it is forbidden for pedestrians or ski toures to walk on the ski pistes at any time of day or night! In general, piste areas are closed from 5pm to 8am. Danger to life!

RECOMMENDATIONS AND SAFETY TIPS::

- ▶ Responsible tour planning!
- ▶ Always study the current avalanche situation report!
- ▶ Always carry the complete emergency equipment with you (avalanche transceiver, shovel, probe, first aid kit, bivouac sack and mobile phone).
- ▶ Familiarise yourself with your emergency equipment and train how to use it.
- ▶ Weigh the risk of avalanches: Always be aware of the risk and react to danger signs! Base your decisions on strategic methods of risk assessment (e.g. „Stop or Go“). and always analyse the snowpack structure at suitable locations using medium snow profile methods.
- ▶ Only set off in weather conditions that will allow you to reach your stage destination safely!
- ▶ Always be aware of risks and react to danger signs!
- ▶ Constantly check whether your planning still corresponds to the current conditions!

CULINARY WORLD

DELICIOUS. MOMENTS. FOR ALL SENSES.

Mmmhhh ... the culinary treats of the World of Mountains & Lakes can leave you lost for words. Luckily, as we all know, silence is golden. Especially if you're about to lean back, savour the delicacies of the region and discover the true taste of the World of Mountains & Lakes!

Whether it's Gailtaler Speck g.g.A. bacon, traditional Gailtaler Almkäse g.U. cheese or savoury Carinthian "Kasnudeln" – the world's first Slow Food Travel Region is all about good taste.

And there's more: Due to the region's proximity to Italy, foodies can look forward to Alpine treats, Mediterranean highlights and fresh fish from local waters or the Adriatic Sea.

WORLD'S FIRST - SLOW FOOD TRAVEL DESTINATION

Travelling to the roots of good taste. Get in touch with the land, the people and the culinary delights. This longing is satisfied by the first Slow Food Travel Destination, which was created in the Gail and Lesach valleys and can now also be experienced in the Gitschtal and at Lake Weissensee. You get to know committed producers, work side by side and experience how their food is created with great attention to detail. You experience a pleasurable culinary voyage of discovery to the roots of good taste.

OUR REGIONAL CULINARY SHOPS

How do you explain the pleasure of a region? What is behind the art of conjuring up a great dish from regional products? Local gourmets quickly come to a common denominator when it comes to these questions. Common denominator: you have to buy from the best producers!

Fortunately, you can find them bundled in various "Genussläden" (gourmet shops), which have made it their business to select local delicacies and enrich their assortment with them. From honey to Gailtaler bacon and alpine cheese to fish or beer from the region. And the best thing about it: the sellers have a close relationship with their suppliers, know a lot about them and how they are produced and thus provide a very special proof of origin. Those who bring a little curiosity and the desire to discover will be surprised at how many dedicated "Greiblern" of this kind the region can boast...
